## Cut your plumbhose on site

*Make on site!  
By hand!  
Without heat!*

Make up a hose in less than 10 minutes on site, by hand without heat using the plumbhose fitting kit

Cut the plumbhose with a standard tube

Put a fitting onto the plumbhose

Flatten the end of the plumbhose with the special tool

The flat provides a seat for the high-temperature washer

Squeeze on the plumbhose circlip

Cut the plumbhose to the required length and repeat
